With this stylish, glow-in-the-dark silicone sleeve, you can protect your Wii Balance Board from the wear and tear of every day use and see it light up in the dark. Ideal for late night gaming sessions, you'll be able to see the glow of this sleeve; preventing you from tripping over the balance board. For an effective glow just expose this sleeve to the light before it is placed in the dark.

Features include:

- Glows in the dark
- Elastic mold for perfect fit
- Cutouts for easy access to switch/LED indicator

With this stylish silicone sleeve, you can protect your Wii Balance Board from the wear and tear of every day use. The soft silicone material acts as an absorbent to lessen the impact of steps taken on the Balance Board, which is sure to happen with active game playing. This sleeve has cut-out openings in areas that correspond with the bottom of the Balance Board and front switch/ LED indicator, allowing easy accessibility. Perfect for preserving your Wii Balance Board in mint condition as it was when first purchased, this silicone sleeve is a must have for every Wii Balance Board owner.

Features include:

- Elastic mold for perfect fit
- Cutouts for easy access to switch/LED indicator
